Department of Liberal Studies

Mission

The mission of the Liberal Studies Department is to provide two quality options for its students: an elementary subject-matter preparation program (Credential Option) that fulfills the standards of the California Commission on Teacher Credentialing; and a non-credential track (General Option) liberal arts experience.

Vision

The vision of the Liberal Studies Department is to provide an education that is supportive, integrative, multicultural, interdisciplinary, and rigorous in order to prepare our graduates for a seamless transition into a teacher credential program, a career in education, graduate studies, and overall success in either public sector or private sector careers.

Goals

The goals of the Liberal Studies Department are to provide its students with a broad and interdisciplinary liberal arts education that requires students to engage in the study of the following core areas: language arts, history and social science, math, science, visual and performing arts, physical education and health, and human development. In addition, they will also develop the academic competencies to better understand our diverse world. Students are also required to engage in field experience in the classroom (Credential Option) or service learning (General Option).

Graduates will have developed the ability to communicate effectively, to think critically, to conduct sound research, to understand global issues, to use knowledge in all aspects of life, to participate meaningfully as citizens, and to discover and apply worthwhile values.

Associate of Arts Degree in Liberal Studies

The curriculum in the Associate of Arts Degree is designed with a two-fold purpose:

• To prepare the student to enter a four-year university to attain a Bachelor’s degree for professional careers in related fields, and

• To provide students with knowledge and skills to enter the workforce.

Requirements

Students may graduate from NHU with an Associate of Arts Degree (A.A.) by satisfying the following requirements:

• Complete a minimum of 68 units of college credit;

• Meet requirements for the Core Courses;

• Meet requirements for the major as described in the catalog;

• Complete a minimum of 34 units in General Education;

• Attain an overall grade point average of “C” (2.0) or higher.

Note: The Associate degree requires fewer General Education courses than the Bachelor’s degree.
