PRESIDENT’S WELCOME

It is with a great deal of pleasure and pride that I welcome you to The National Hispanic University (NHU). The NHU offers students an opportunity to participate in a process that is personalized and that has been designed to educate, enlighten and empower individuals. Students are provided with an atmosphere where each person is valued, supported and encouraged toward reaching their utmost potential.

The founder and former President of the NHU, Dr. B. Roberto Cruz, worked diligently and unselfishly over many years in order to establish this unique institution. He was able to encourage others to envision and create a premier institution of higher education dedicated to the educational enhancement and empowerment of Hispanics and other economically marginalized students. He provided the vision and laid the foundation upon which this university will continue to grow so that we can provide a better tomorrow for so many in our diverse, dynamic and ever changing society.

The NHU stands ready to meet the educational needs of each individual with quality programs and caring, highly qualified faculty. As our student enrollment grows, we will continue to graduate greater and greater numbers of well prepared and highly motivated students. We serve as a model for other institutions of higher learning that also struggle to educate, with varying degrees of success, a very diverse student body. The NHU has experienced success in the challenges mentioned above and has been successful in focusing and building on our commonalities.

It is my utmost desire and hope that The NHU provides each and every one of you an atmosphere that will allow you to explore and reach the outer limits of your potential. By enrolling at The NHU, you have already taken the first and important step in changing your world and more importantly in changing yourself.

I invite you, at your convenience, to visit with me and share your experiences at this very special and unique institution.

Welcome and ¡Bienvenidos!
Caminando Juntos…¡Si se puede!

Dr. David P. López
President
