THE NATIONAL HISPANIC UNIVERSITY

Presents:

Dr. Cipriano Santos

Dr. Santos is the 2004 recipient of the Hispanic Engineers National Achievement Award. Dr. Santos is one of the nation’s top scientists.

He has been a scientist at Hewlett Packard in Palo Alto since 1990 and his work on mathematical optimization helps Hewlett Packard make key marketing decisions.

He received his undergraduate degree from the Universidad Nacional Autonoma de Mexico and went on to a Ph. D. at the University of Waterloo in Canada.

Born in Mexico, Dr. Santos contracted polio at the age of three. He discovered a love for mathematics which he first learned outside of school while recovering from spinal surgery at the age of seven. Nothing has stood in the way of this scientist who has always set his goal as making a difference.
